NEW PLEA BY WILSON

Southern Department Passes Quota, While New York Lags Far Behind.

In order to save the American people, if possible, from the humiliation of apbearing ungrateful to Uncle Sam's solfliers and sailors, as it was officially explained last night at the United War Work Fund Cammign headquarters, the campaign, which was to have ended to-morrow night, is extended to Thurs-

mering. The campaigners will be thankful if they merely make their distance, although with the additional time they believe they can do rather better. They

This prospective failure was accounted for, they thought by the day or two lost at the start through the peace selebration and by the influenza, especially. cially in Pennsylvania and the Far West. Election day was also mentioned by John D. Rockefeller, Jr., and he believed the premature celebration of peace had impaired campaigning energy be-forehand. ed the premature celebration of peace

Nevertheless," he said, "we certainly liave little reason to be proud of the liendway thus far reported."

A second appeal from the President, dated at the White House Friday and addressed to Dr. Mott and Cleveland H Dodge, campaign treasurer, read: I am sure that the entire American people are following with eager and responsive interest the progress of the United War Work Campaign. Now that the cessation of hostilities has come, we have entered upon a period in which the work of our seven agencies as-numes if possible an added importance. The incitement under which our sol-liers and sailors have been working is yithdrawn, their hours of leisure are much more numerous, their temptations

small fraction of their time.
"Only two days remain before the campaign closes, and very much more money will be needed before the desired arge oversubscription is secured. I canbelieve that our people from one end of the country to the other will rally in generous and sacrificial giving to complete this fund and to give our men this fresh and unmistakable evidence that we are all still behind them and with them during their patient and long vigil in our behalf and in the est of completing the high patriotic on which we sent them forth.

Mr. Hoover said yesterday that the Food Administration does not like its job of trying to straighten out the difficulties in the milk situation and would like to have the producers and distributers select some other umpire. However, he added, no suggestion had been made that the Food Administration retire as upports. tire as umpire.
"If the Food Administration continues "To the Food Administration." he said, "obto handle this situation," he said, "ob-viously it must handle it through Fed-eral officials." In explanation of the recent increase of one cent in the retail price of quarts and pints of milk, Mr. Hoover said: "The Labor Adjustment Board raised

wages (of employees of distributers) one cent a quart. Some one has to pay and it is always the poor consumer.
